Blue Signal

Adventure / Quest · PC · Preparing a demo

Team of 3

A revival of the classic 2D adventure with an AI-powered command line. A small, stylish game for PC and tablets in the spirit of early parser quests like Police Quest — set in a nostalgic 1980s, with the art to match.

The Grey Room

Horror, puzzle · PC · Preparing a demo

Team of 2

You are a patient with paranoid schizophrenia, trapped in an apartment that keeps changing. Collect the shards of a broken mirror to uncover the cause of your illness — while battling your own mind.

#3

DEPOZITAZ

Multiplayer scavenger, light PvP · PC, Mac · Prototyping

Team of 1

A meditative bottle-collector simulator. Explore the city the morning after a loud night, find bottles and cans, judge their value and return them for coins. Enjoy the empty streets — or turn your haul into a weapon against other players.

FOR GAME DEVELOPERS

Your game could be here next month

Add your project to GDHub, post devlogs as you build, and let players, teammates and scouts find it.
